DEM Website Filename Change Conventions

Capitalization

All uppercase alphanumeric characters were replaced with the corresponding lowercase alphanumeric character.

Character Replacement

The following characters were replaced by the underscore ("_") character:

- (
-)
- .
- -
- &
- (space)

However, if the character came right before the file extension it was removed. For example "example(1).jpg" becomes "example_1.jpg".

Still Can't Find It?

Try to renavigate to the page from our [homepage](). Still no soap? You can always call our [webmaster]() at 222-4700 ext. 7501.
